mountain

## To know statements

I know the differences between things that are living, dead, and things that have never been alive.

I know the names of a variety of plants and animals in a microhabitat.

I know how to build a suitable microhabitat where living things could survive.

I know what animals eat to survive in their habitats.

I understand a food chain.

I know the journey food makes from the farm to the supermarket.

What can you remember from previous units?

Do you know the different foods that some animals eat?

Can you remember what an omnivore, herbivore and carnivore eat?

Anything else you have learnt? What have you enjoyed?
