To know statements

I know a variety of everyday materials.

I know how to distinguish between an object and the material it is made from.

I know the properties of everyday materials.

I know objects that are natural and those that are manmade.

I know if an object will float or sink.

I know which materials are best for different objects.

What can you remember from previous units?

What materials do you know?

Do you know what they are used for?

Anything else you have learnt? What have you enjoyed?
