Inferring Character Feelings

Roll a dice to choose an emotion.

1	2	3	4	5	6
happy	sad	angry	worried	scared	relaxed

Then, create a list of words and phrases to describe how a character feeling this emotion might behave. For a bigger challenge, roll a new dice for each box.

How do they move?	What is their face doing?
How do they stand?	**How are they speaking?**
What are they doing with their hands?	**What can they feel their body doing?**
