

Second-Hand Planet

Second-hand planet,
Few million miles on clock,
Seeks careful owner.

Glaciers melting;
Global sea levels rising.
Turn up the heating.

Carrier bag seas;
Killing fish and marine life:
Plastic habitat.

Deforestation;
Cattle farms; palm oil; paper:
Read all about it.

Drilling for money;
Oil slicks; polluted oceans.
Let's buy a nice car.

Intensive farming;
Pesticides poisoning earth.
Eat up all your greens.

Over-fished oceans;
Tuna, plaice, haddock and cod.
Salt and vinegar?
